INTRODUCTION

This index has been compiled to provide subscribers to Educational Administration Abstracts (EAA) with a useful reference tool with which to identify and utilize the journal articles abstracted in Volumes I and II (1966 and 1967) of EAA.

The index is organized in two parts. Part I contains a list of terms taken from the Thesaurus of ERIC Descriptors which lists all the terms that have been developed from the indexing of research reports, projects, and other documents processed by the Educational Resources Information Center, a network of 19 clearinghouses funded by the Office of Education. The terms were used to identify major subjects found in the abstracts in Volume I. Beneath each term is a list of numbers which correspond to abstracts in the three issues of Volume I, e.g., 001 is abstract number 1. Part II contains a list of terms and corresponding abstract numbers for Volume II.

To locate indexed abstracts:

1. Select a subject. You want, perhaps, to look at the abstracts containing information about academic freedom.
2. Locate the appropriate term(s) in the index. For this particular topic, you would use the term "academic freedom."
3. Match the term with the abstract number. In the index for Volume I, there are two numbers listed under "academic freedom": 106 and 489; in the index for Volume II, there are three numbers listed: 508, 514, and 534.
4. Match the numbers with the abstracts in the appropriate volumes.
